LiveScan Plus

## *Advanced Hand Scanning Solution*

Customizable & Adaptable

DataWorks Plus' LiveScan Plus is an integrated criminal / applicant live scan solution that is flexible in design and configuration. It is the first live scan solution developed to support multiple vendor's FBI-Certified live scan hardware. This allows DataWorks Plus to remain open and objective when recommending the live scan solution that best meets the needs of your agency.

LiveScan Plus is fully compatible with any major vendor's live scan hardware, which allows you to choose the live scan that best meets your needs.

Easy-to-Follow Workflow & Quality Assurance

LiveScan Plus captures all data and fingerprint images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission. In addition, the color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback to users if any prints are of poor quality or out of sequence. These features, as well as slap-to-roll comparisons will greatly reduce the number of rejections upon your agency's submission to the state AFIS.

Custom-designed fields

Automatic data transfer from RMS or JMS

Optionally read data from magnetic strips on cards, such as driver's licenses

Step-by-step guide through capture process

Real-time feedback

Slaps, rolls, palm & writer's palm prints

Quality metrics ensure that you always have the perfect print.
