certified livescan hardware

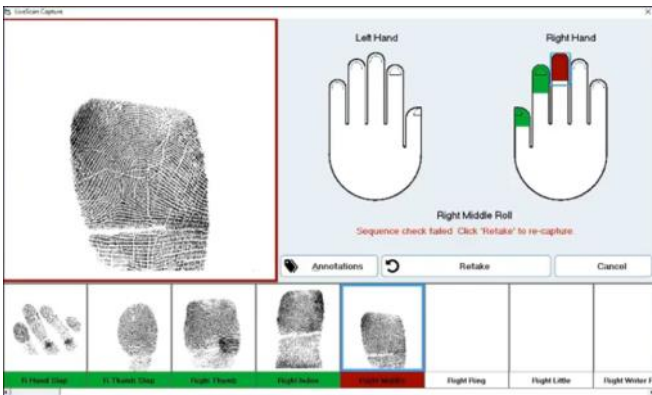

Custom-designed fields

Step-by-step guide through capture
process

Optionally read data from magnetic
strips on cards, such as driver's
licenses

Real-time feedback

Quality metrics ensure that you
always have the perfect print

LiveScan Plus

Portable GO Kit

DataWorks Plus' portable GO Kit will allow officers to capture fingerprints and/or palmprints and mugshots in the field.

Battery-Powered LiveScan Plus System

The GO Kit includes a battery-powered LiveScan Plus system - 500 ppi fingerprint and/or palmprint capture scanner, Dell precision laptop, and mugshot capture system in a self-contained Pelican case for maximum durability. Since the kit can be operated and recharged on vehicle DC power sockets and utilizes two battery kits for 8 hours of usage, you can be sure the GO Kit can adequately power your needs for an entire shift. Overnight recharging ensures quick usage and minimum downtime.

A high-resolution SLR camera, tripod and collapsible image backdrop (18% gray) is incorporated for on-the-spot mugshot captures. The system can include DNA TOT and magnetic stripe readers for maximum convenience.

Customizable & Adaptable
 LiveScan Plus captures all data and images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission.

Easy-to-Follow Workflow & Quality Assurance
 The color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback to users if any prints are of poor quality or out of sequence. These features, as well as slap-to-roll comparisons will greatly reduce the number of rejections upon your agency's submission to the state AFIS.

Fingerprint Review
 From a single screen, review all captured prints at any time during the capture process. To re-scan an image, simply select the desired fingerprint or palm print image.

Integrated Booking System
 Expand LiveScan Plus to capture irises, mugshots, SMTs, or signatures when integrated with DataWorks Plus' Digital PhotoManager.

Live Scan • Mugshot & Criminal Booking • Fingerprint Archive
 Mobile Fingerprint Identification • Crime Scene Digital Asset Management
 Multimodal Biometrics (Fingerprint, Iris, Facial) • Applicant Live Scan
 Tattoo Matching • Facial Recognition Case Management • Inmate Tracking
 Live Surveillance Facial Recognition
