**Customizable & Adaptable**  
 LiveScan Plus captures all data and images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission.

**Easy-to-Follow Workflow & Quality Assurance**  
 The color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback to users if any prints are of poor quality or out of sequence. These features, as well as slap-to-roll comparisons will greatly reduce the number of rejections upon your agency's submission to the state AFIS.

**Fingerprint Review**  
 From a single screen, review all captured prints at any time during the capture process. To re-scan an image, simply select the desired fingerprint or palm print image.

**Integrated Booking System**  
 Expand LiveScan Plus to capture irises, mugshots, SMTs, or signatures when integrated with DataWorks Plus' Image System digital photo manager.

Live Scan • Mugshot & Criminal Booking • Fingerprint Archive  
 Mobile Fingerprint Identification • Crime Scene Digital Asset Management  
 Multimodal Biometrics (Fingerprint, Iris, Facial) • Applicant Live Scan  
 Tattoo Matching • Facial Recognition Case Management • Inmate Tracking
