

## LIVESCAN PLUS

# A New-Generation of Booking Solutions

LiveScan Plus is an advanced solution suite that allows you to collect, store, search, and manage every piece of biometric data from criminal booking or applicant processing.

### Flexible Design and Configuration

Supports multiple vendors' FBI-Certified live scan hardware, which allows you to choose the live scan hardware that best meets the needs of your agency.

### Customizable and Adaptable

Capture all data and images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission.

### Easy-to-Follow Workflow & Quality Assurance

The color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback to users if any prints are of poor quality or out of sequence. These features, as well as slap-to-roll comparisons will greatly reduce the number of rejections upon your agency's submission to the state AFIS.

### Fingerprint Review

Review captured prints any time during the capture process from a single screen. To re-scan an image, simply select the desired fingerprint or palm print image.

### Integrated Booking System

Expand LiveScan Plus to capture irises, mugshots, SMTs, or signatures when integrated with DataWorks Plus' Digital PhotoManager Image System.

## LiveScan Software

Capture, store, and retrieve demographic data and all primary biometrics including fingerprints, palm prints, mugshots, SMTs, and irises.

- Capture Slaps, Rolls, Palms, and Writer's Palm Prints
- Quality Metrics & Real-time Feedback – Ensure the highest quality prints
- Automatic Biometric Enrollment
- Centralized User Management and Auditing
- Store up to 45,000 records locally with Global Transaction Manager
- Automatic Data Transfer from RMS or JMS
- Customized Fields

## Criminal Booking

Booking collection and management solutions for law enforcement and corrections applications.

- Integrated Booking Workflow
- Comprehensive Image Capture via Digital PhotoManager
- Web-based Investigative Tools including Lineups, Case Management, and Secure Witness Viewings

## Deadsan

Utilize small, lightweight, mobile FAP50 fingerprint scanner for capturing prints from deceased persons in the field or in medical examiner's offices.

## Applicant Background Check

Use LiveScan Plus for non-criminal, secure background checks for job applicants, gun permits, and numerous other civil fingerprinting purposes.
