# DataworksPlus

EVOLUTION 3

Mobile Identification Has Evolved

Evolution 3 is an all-in-one smartphone mobile identity device that can capture fingerprints, photos, and irises in the field. Search multiple databases, then view results on the device.

A SERIES

S SERIES

Evolution 3 can be configured to capture any combination of biometric data and is CJIS compliant.
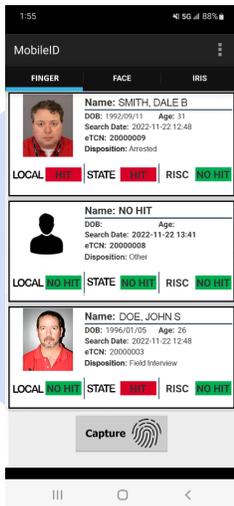

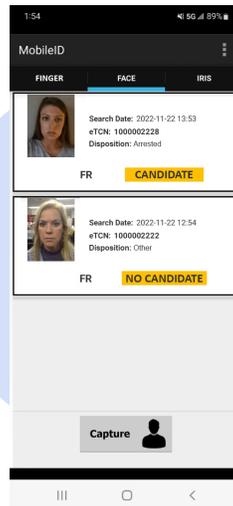

Fingerprint Capture

Facial Recognition

IRIS Capture

Fingerprint Identification
Run searches on captured prints. View results from multiple databases within minutes.

Facial Recognition
Find accurate, reliable facial candidates to use as investigative leads.

IRIS Capture
Capture high-resolution images of the iris and search against your database to find a match.

Flexible Design and Configuration

Choose the phone and case combination that best suits your field operations. Our customizable options ensure durability, functionality, and performance.

Fast Hit / No Hit Response

Responses are returned within minutes. You will see associated records including NCIC, state arrest history, mugshots (when on file), wants/warrants, etc.

Multimodal Capture

Easily and securely collect biometrics (fingerprints, photos, and/or irises) and search local, statewide, and/or FBI databases from the field.

FBI CJIS Security Compliance

Mobile Device Management software provides two factor authentication and customizable shells to ensure compliance with the FBI CJIS security policy.

FBI CJIS Security Compliance - For Cellular Connectivity

Secure Mobile Data Service (SMDS) from DataWorks Plus on Evolution 3 provides Mobile Device Management software, two factor authentication, and a customizable shell to ensure that your agency complies with the FBI CJIS Security Policy.

Bundle Evolution 3 with DataWorks Plus-provided Verizon data plan for additional savings and ease of use (optional and dependent upon your agency's IT procedures and regulations).

Integrated Fingerprint Capture	FAP-30 Integrated Biometrics LES Film Sensor 500 PPI Operates in direct sunlight
Fingerprint Capture Type	Single Finger Flat
Sensing Area	.8" x 1"
Iris	Rear dual iris capture (optional)
Speed	Minimum frame rate >10 FPS
Connectivity	Cellular, Wi-Fi, Bluetooth
