

PORTABLE LIVESCAN PLUS

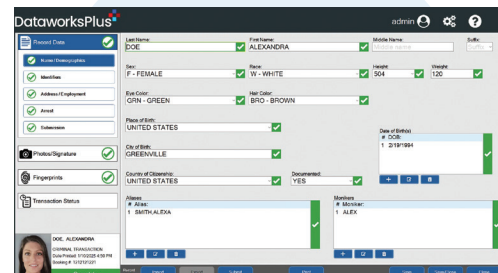

A New-Generation of Booking Solutions

Use LiveScan Plus on the go with one of our portable options. Use for mobile book and release, decedent biometric capture, field arrests, or large events that need a temporary booking station.

LiveScan Software

Capture, store, and retrieve demographic data and all primary biometrics including fingerprints, palm prints, mugshots, SMTs, and irises.

- Capture Slaps, Rolls and Writer's Palm Prints
- Quality Metrics & Real-time Feedback – Ensure the highest quality prints
- Automatic Biometric Enrollment
- Centralized User Management and Auditing
- Store up to 45,000 fingerprint locally with Global Transaction Manager
- Automatic Data Transfer from RMS or JMS
- Customized Fields

Flexible Design and Configuration

Supports multiple vendors' FBI-Certified live scan hardware, which allows you to choose the live scan hardware that best meets the needs of your agency.

Customizable and Adaptable

Capture all data and images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission.

Easy-to-Follow Workflow

The color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback to users if any prints are of poor quality or out of sequence. The workflow is fully customizable.

Fingerprint Review & Quality Assurance

Review captured prints any time during the capture process from a single screen. To re-scan an image, simply select the desired fingerprint or palm print image.

Mobile and Efficient

Easily move between holding cells, intake areas, and mobile units. Portable LiveScan Plus is ideal for temporary or remote booking setups (i.e. DUI checkpoints, mobile command centers, etc.)

Integrated Booking System

Expand LiveScan Plus to capture irises, mugshots, SMTs, or signatures when integrated with DataWorks Plus' Image System Digital PhotoManager.

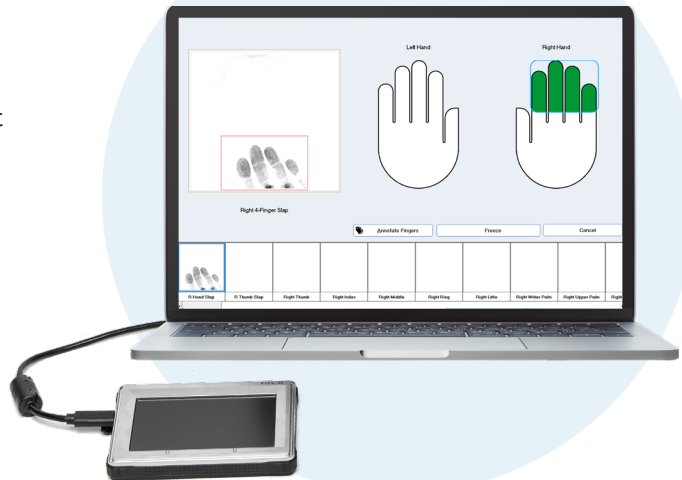

Multiple Form Factors

We offer a range of hardware options designed to meet the diverse needs of agencies. From large scale state organizations, to local facilities, DataWorks Plus has a solution for you. Let us help you choose the right LiveScan system to drive your success.

Tethered

Our tethered options allow agencies to choose from a wide range of certified fingerprint scanners and connect them directly to a laptop or tablet.

This setup is ideal for booking environments where mobility is needed, but a full desktop isn't practical.

Integrated

Designed for simplicity and portability, this all-in-one unit is equipped with a built-in scanner for criminal or applicant use.

Customers can choose between two scanners:

- FAP-50 Certified: Ideal for applicant use, such as background checks, licensing, and civil enrollment.
- FAP-60 Certified: Designed for criminal booking, with the ability to capture palm prints in addition to flats and rolls, meeting the most rigorous law enforcement standards.
