

EVOLUTION 5150

## All-in-One Tablet with Tenprint Capture

Evolution 5150 is a tablet-based, portable device with an integrated tenprint scanner, along with cameras for facial capture and irises. It includes an industrial grade polycarbonate/rubber case, Wi-Fi and cellular communication capabilities, and a built-in GPS.

Streamline and modernize your booking workflow with one powerful, all-in-one device.

Fingerprints

Pair Evolution 5150 with a variety of DataWorks Plus software solutions to meet your agency's specific needs.

- **Mobile Booking:** Capture, store, and retrieve demographic data and all primary biometrics including fingerprints, mugshots, SMTs, and irises for a complete mobile booking solution.
- **DeadScan Plus:** Capture, store, and retrieve decedent prints to identify bodies, aid in police investigations, and notify next of kin.
- **Rapid ID:** Capture rolled and flat fingerprints, along with facial images, and irises (optional). Search against local, state, and federal databases for matches and investigative leads.

## Flexible Design and Configuration

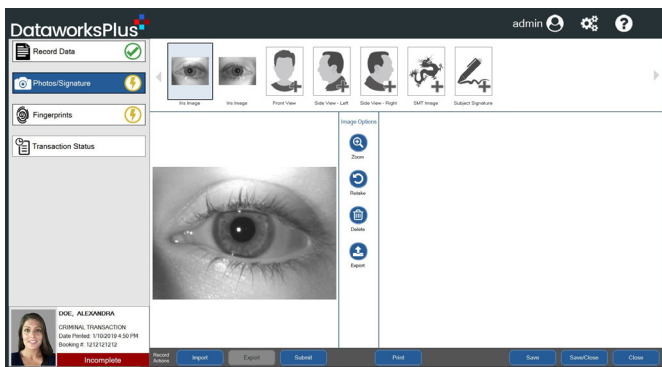

Supports multiple operational needs. Use as portable LiveScan Plus, for decedent print capture, or rapid identification in the field.

## Easy-to-Follow Workflow

The color-coded graphical user interface provides an easy-to-follow workflow as well as immediate feedback if any fields or required information is missing. These features help to greatly reduce the number of rejections to the state AFIS.

## Mobile and Efficient

Easily move between holding cells, intake areas, and mobile units. Ideal solution for temporary or remote setups (i.e. DUI checkpoints, mobile command centers, etc.)

## Customizable and Adaptable

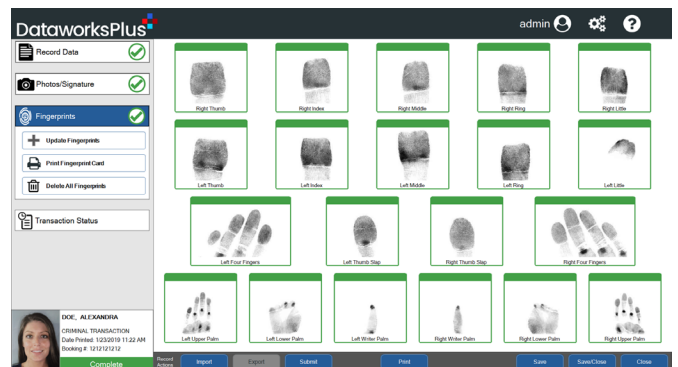

Capture all data and images efficiently and accurately. Customizable field validation ensures that all required fields are completed accurately prior to submission.

## Fingerprint Review & Quality Assurance

Review captured prints any time during the capture process from a single screen. Receive immediate feedback if any prints are of poor quality or out of sequence.

## Fast Hit/No Hit Responses

Use Evolution 5150 for rapid identification of subjects in the field. Responses are returned within minutes. You will see associated records including NCIC, state arrest history, mugshots (when on file), wants/warrants, etc.

## FBI CJIS Security Compliance - For Cellular Connectivity

Secure Mobile Data Service (SMDS) from DataWorks Plus on Evolution 5150 provides Mobile Device Management software, two factor authentication, and a customizable shell to ensure that your agency complies with the FBI CJIS Security Policy.

Bundle Evolution 5150 with DataWorks Plus-provided Verizon data plan for additional savings and ease of use (optional and dependent upon your agency's IT procedures and regulations).
